☐ **YES**, this DISTRICT, ORGANIZATION, or STATE agrees to contract with NNPS at Johns Hopkins University for professional development services for our Leader(s) for Partnerships for the next school year (July 1-June 30). NNPS training sessions and on-going support will enable our leader(s) to strengthen goal-linked programs of school, family, and community partnerships in ALL schools, with ALL families, and for ALL students.

We understand:

- NNPS will offer a series of professional development activities and on-going support for our Leader(s) for Partnerships. The Scope of Work (*Menu of Services*) includes leadership workshops; quarterly facilitative sessions to address emerging challenges; quarterly knowledge-building sessions on topics of family and community engagement; workshops for school-based teams; materials to evaluate progress; and other NNPS resources.
- NNPS will guide our Leader(s) for Partnerships to ensure the implementation of research-based, site-specific, grade-appropriate, and goal-linked partnership programs and practices that will contribute to student learning, attendance, behavior, health, post-secondary planning, and other important results for student growth and educational success.
- The total cost for all NNPS services, resources, and support for one year for all of our Leaders for Partnerships and for the team-training of our schools is \$12,500.

This collaboration will enable us to conduct more effective and more equitable programs of family and community engagement in all schools, as directed by federal, state, and local policies on family engagement.
